LAB TITLE

course number and name

Student name

REPORT DATE

Instructor name

Course number and name
semester

1 Abstract

A short one or two paragraphs about the laboratory exercise. Discuss what is going to be done, and what will be accomplished.

2 Tasks

Detail each of the tasks, screenshots (if applicable), output, questions to be answered, etc. Be detailed and document all key steps taken, using screenshots to demonstrate that you completed each step.

1 Task 1: task 1 title

Task 1 details

2 Task 2: task 2 title

Task 2 details

3 Task 3: task 3 title

Task 3 details

3 Issues or problems

What, if any, issues did you experience during the laboratory exercise? How did you solve them?

4 Conclusions

Detail the output and final results of the laboratory exercises. Answer the question: “What did you learn during this lab?”
